Expected Graduation: May 2025

Dean's Honor Roll List: 6 out of 7 semesters

Relevant Coursework: Software Engineering, Object Oriented Programming, Data Structures, Programming Paradigms, Web Programming, Linux, Cross-Platform Mobile Development, Operating Systems, Design & Analysis of Algorithms.

Experience

Seraph Secure Front-end Developer

Remote
February 2024 - Present

- Utilized Statamic to develop and maintain the company's main website.
- Implemented responsive, mobile-friendly UI components to improve accessibility and user experience.
- Collaborated with designers and backend developers to integrate dynamic features and enhance site performance.

Envision Information Technology Intern

Wichita, KS
February 2024 - November 2024

- Strengthened teamwork skills when collaborating with associates to efficiently resolve application issues and when leading daily group meetings.
- Automated tasks using PowerShell scripts, reducing manual effort and improving operational efficiency.
- Contributed to database management tasks in SQL Server Management Studio, including data entry, cleanup, and performance optimization for efficient data retrieval.

Wichita State University AI & Machine Learning / VEX V5 Robotics Engineering Camp Volunteer

Wichita, KS
Summer 2024

- Assisted students in designing deep learning architectures for computer vision and natural language processing tasks.
- Guided students through building and programming robots using VEX V5 kits, focusing on movement control and sensor integration for object interaction.

Projects

Mantis Fitness Gym App

Summer 2024

- Built a React web application that generates personalized workout routines based on user-selected fitness goals.
- Integrated a dynamic, aquatic-themed UI and deployed the app using Netlify.
- Leveraged React Hooks and state management to ensure a smooth user experience.
